32 41,5	250 800

È lo strumento di consultazione che offre una panoramica rapida di dimensioni e rese termiche coperte da una collezione.

H, L, P: range di altezze, larghezze, profondità minime e massime, inclusi gli attacchi a parete.

W: range di rese termiche minime e massime, espresse in Watt.

Simple outil de consultation rapide pour les dimensions et les puissances thermiques d'une collection.

H, L, P: gamme de hauteurs, largeurs et profondeurs minimales et maximales, y compris les fixations murales.

W: gamme de puissances thermiques minimales et maximales, exprimés en watts.

It is a reference tool that provides a quick overview of the sizes and heat outputs covered by a collection.

H, W, D: range of minimum and maximum heights, widths and depths, including wall brackets.

W: range of minimum and maximum heat outputs, expressed in watts.

CALORIFERO

Soluzioni studiate per offrire alte rese termiche.

RADIATEUR

Solutions conçues pour offrir un puissances thermique élevé.

RADIATOR

Solutions designed to offer high thermal efficiency.

SCALDASALVIETTE

Complemento ideale per il bagno, riscalda e asciuga.

SÈCHE-SERVIETTES

Complément idéal pour la salle de bain, il chauffe et sèche.

TOWEL WARMER

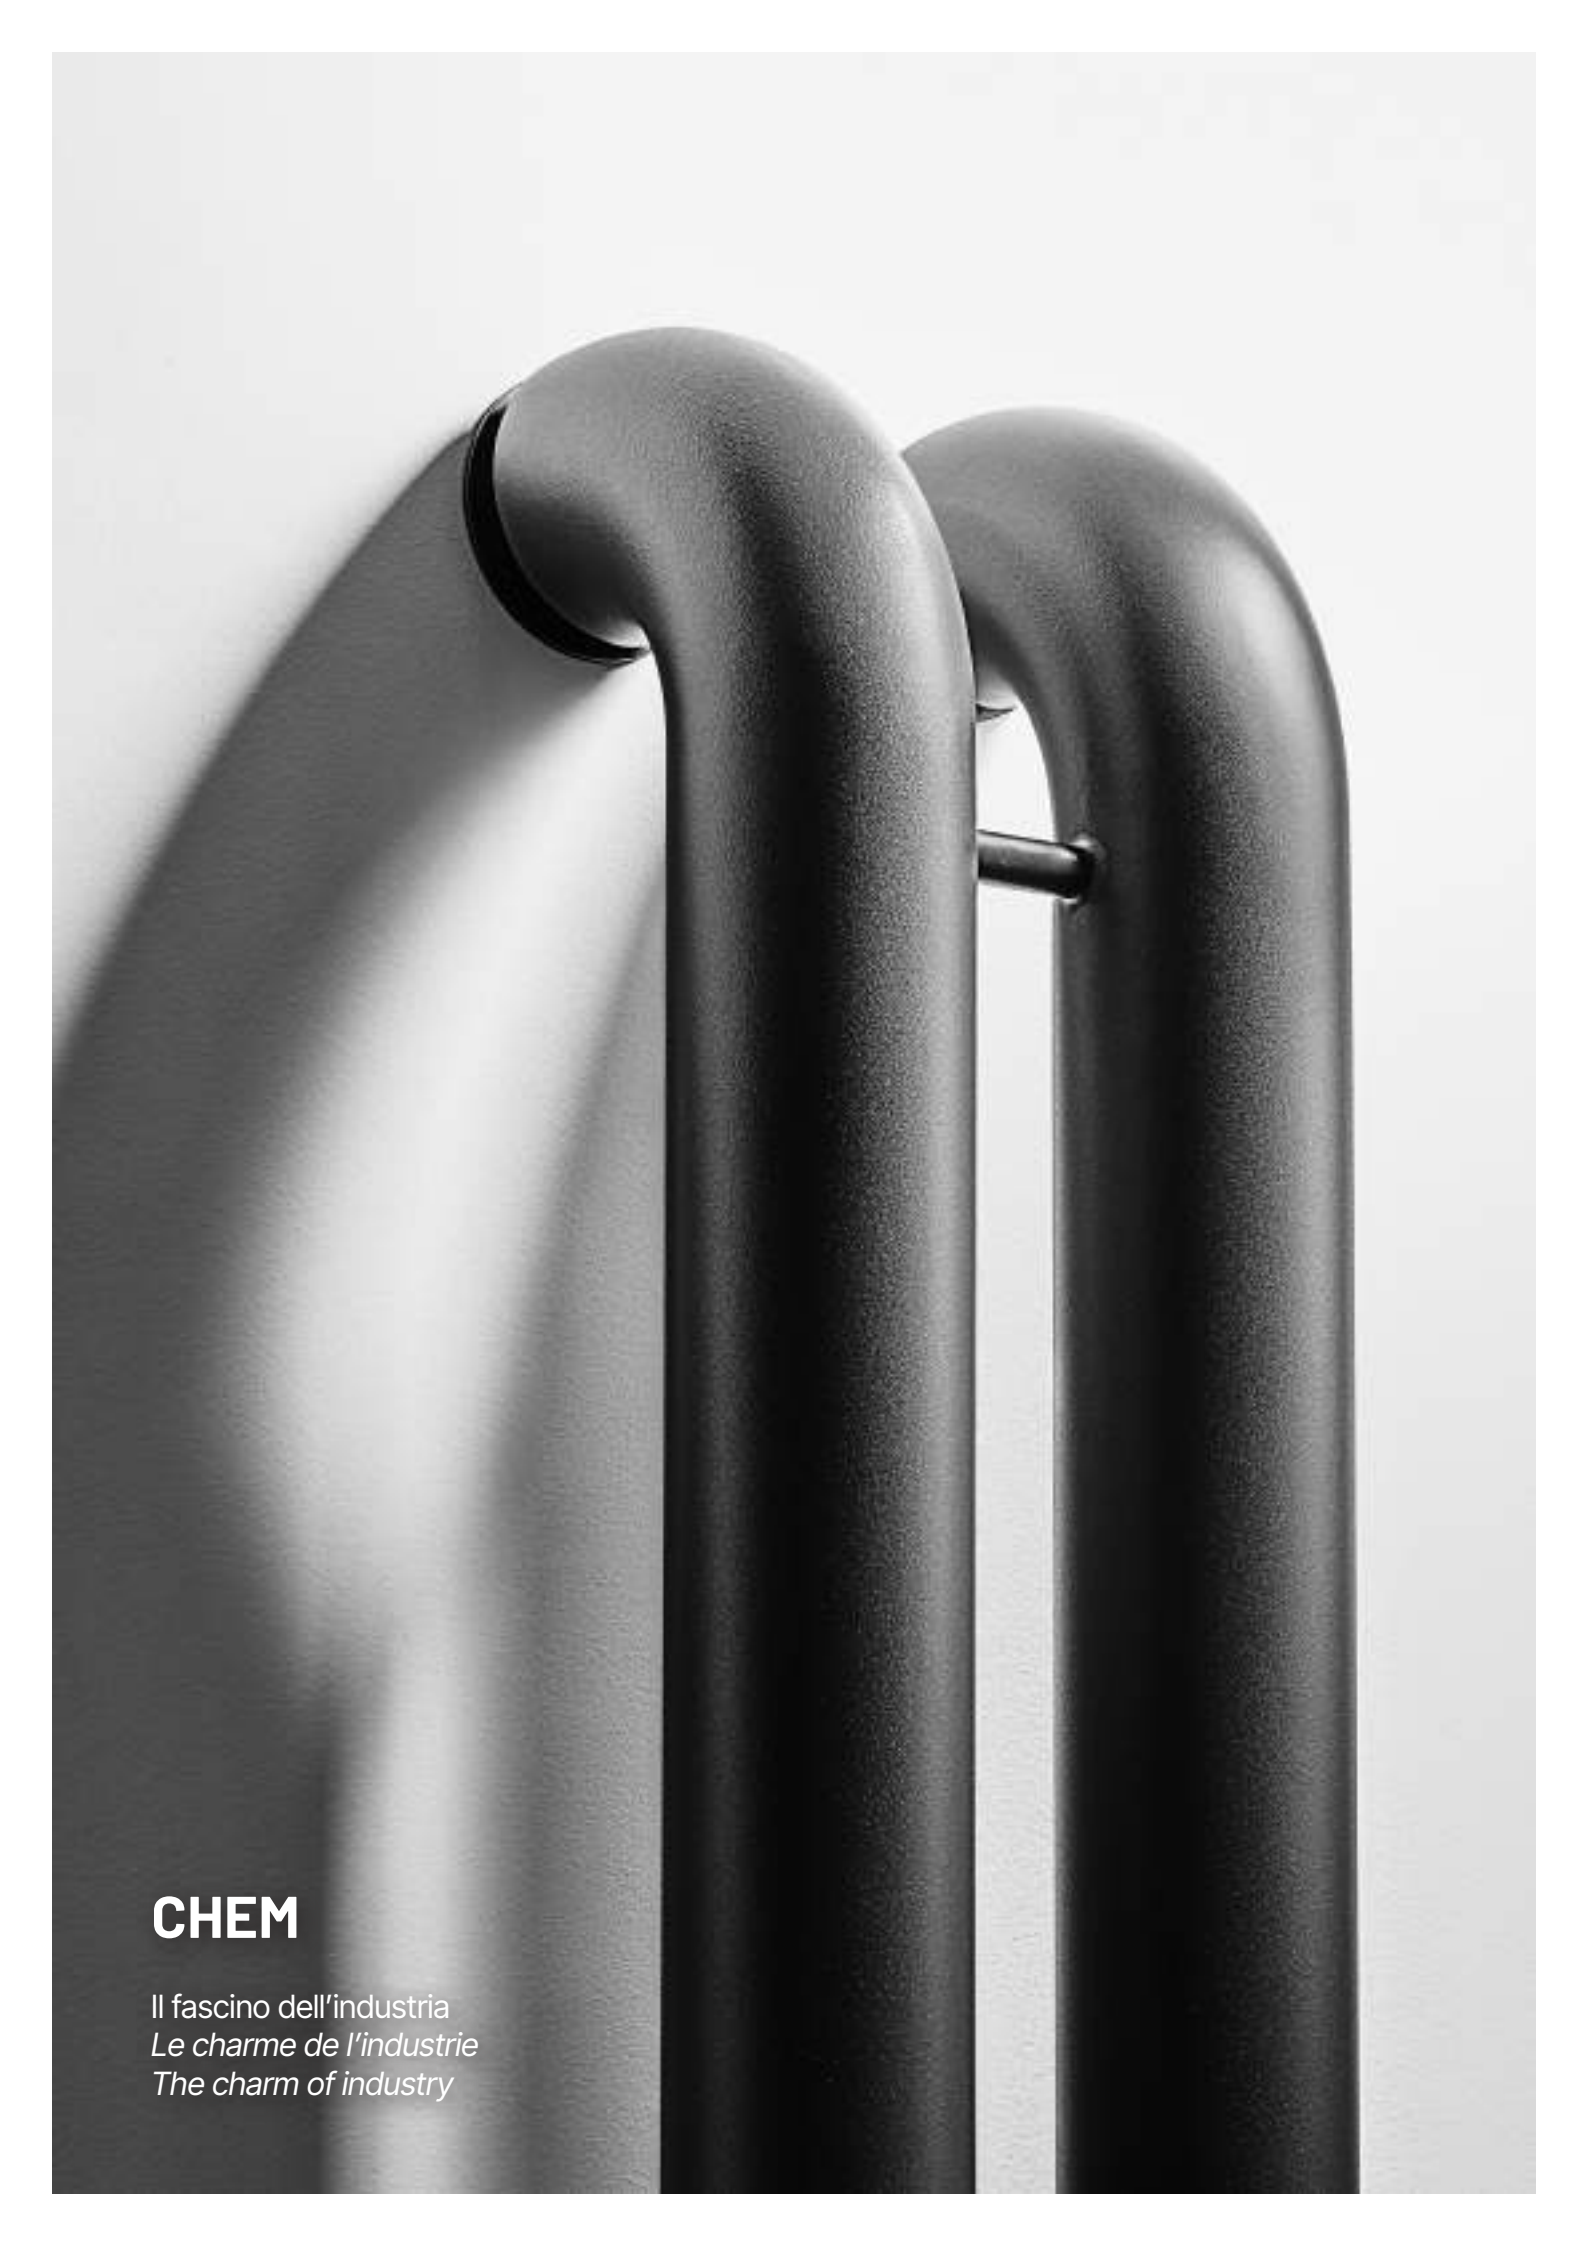

The ideal bathroom accessory, it heats and dries towels.

Funzionamento idraulico.
Chauffage hydraulique.
Hydraulic operation.

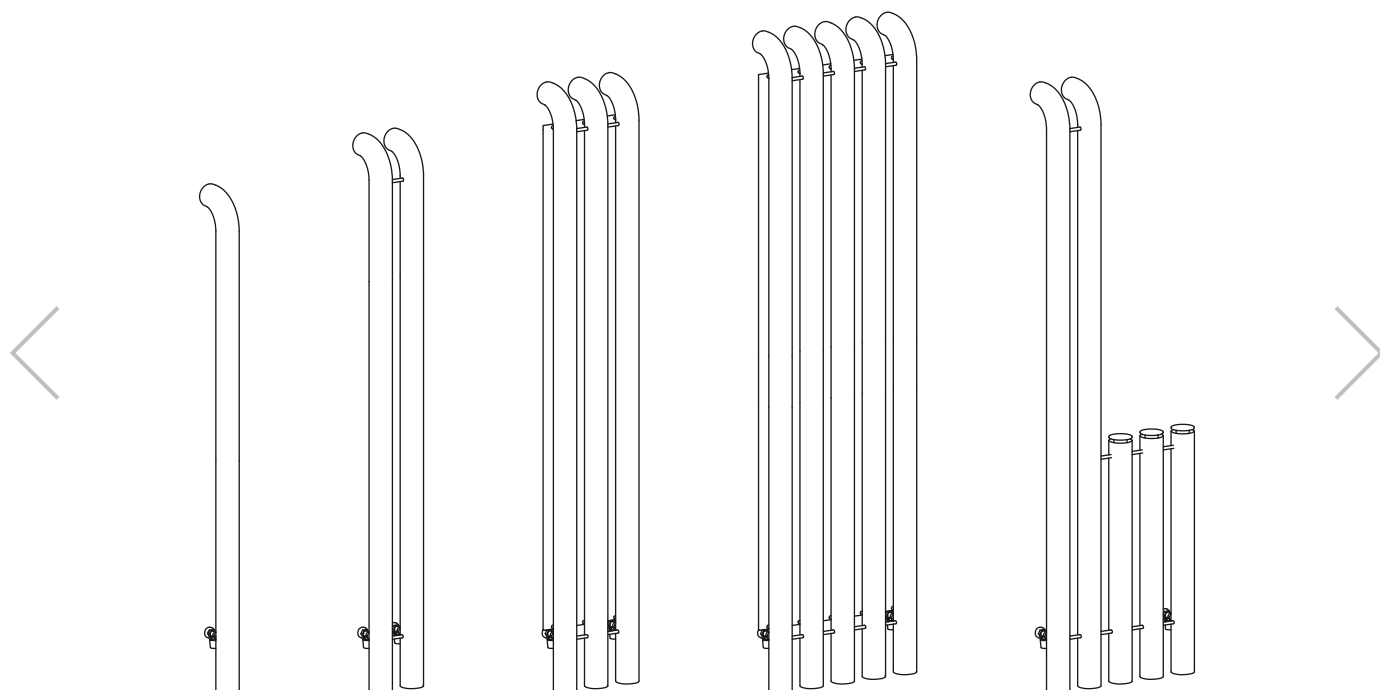

Funzionamento elettrico.
Chauffage électrique.
Electrical operation.

8,2	486 900

DUO

design: Luigi Brembilla

Simmetria, leggerezza e valvole nascoste. Duo è disegnato con piastre radianti poco più spesse di 2 cm, che appaiono ancor più sottili grazie ai bordi rastremati. Disponibile con piastre e collettori bicolor.

Symétrie, légèreté et vannes cachées. Duo est conçu avec des plaques radiantes d'un peu plus de 2 cm d'épaisseur, qui semblent encore plus fines grâce à leurs bords effilés. Disponible avec des plaques et des collecteurs bicolores.

Symmetry, lightness and concealed valves. Duo is designed with radiant plates that are just over 2 cm thick, which appear even thinner thanks to their tapered edges. Available with two-tone plates and manifolds.

DUO

La cornice rastremata permette di nascondere le valvole.

Le cadre effilé permet de dissimuler les valves.

The tapered frame allows the valves to be concealed.

RAW

design: Davide Diliberto

La collezione Raw trasforma il radiatore in un elemento tridimensionale, vuoto e leggero. L'incrocio dei tubi cita elementi da costruzione come impalcature e tralicci, per dialogare con l'architettura in modo diretto e non convenzionale.

La collection Raw transforme le radiateur en un élément tridimensionnel, vide et léger. Le croisement des tubes fait référence à des éléments de construction tels que les échafaudages et les poutres, pour dialoguer avec l'architecture de manière directe et non conventionnelle.

The Raw collection transforms the radiator into a three-dimensional, hollow and lightweight element. The intersection of the pipes references construction elements such as scaffolding and trusses, interacting with the architecture in a direct and unconventional way.
