caleido

Caleido porta i codici del design nel mondo dei radiatori e dal 1993 è impegnata nella ricerca di nuove strade affinché l'oggetto radiante diventi sempre più un elemento caratterizzante e integrato del progetto.

Dalla collaborazione con Marco Piva nasce *Infinito*: un sistema di riscaldamento modulare e flessibile, con elementi capaci di costruire un nuovo codice stilistico.

Caleido brings the codes of design into the world of radiators and has been seeking new ways to make radiators increasingly a characterising and integrated element of design since 1993. *Infinito* is the result of the collaboration with Marco Piva. A modular and flexible heating system, the elements of *Infinito* build a new stylistic code.

Tout en introduisant les codes du design au monde des radiateurs, Caleido recherche depuis 1993 de nouvelles façons de faire de l'objet rayonnant un élément distinctif et de plus en plus intégré au projet. La collaboration avec Marco Piva a donné naissance à *Infinito*, un système de chauffage modulaire et flexible dont les éléments sont capables de créer un nouveau code stylistique.
